

SERUM SAVES LIVES

STRONGER UNITED

ONE VOICE

Direct access to the diplomatic community and regulatory bodies in Brussels.
A strong network with regulators, associations of related sectors and serum clients.

Your open door to the latest information and solutions for your serum business.

Actively defending the key roles of serum for both human and animal health.
Gathering scientific evidence that serum is amongst the safest and best performing cell culture supplements.
Actively educating regulators, serum users and their associations about facts and myths related to serum products.

Striving to harmonize worldwide standards and facilitate the international trade of serum products.

Supporting and enhancing Animal Welfare Standards.

ESPA will take care of your interests and assets.

With your participation and input, ESPA will become a trusted partner of choice for your scientific, industrial and regulatory needs.
